

# 2010 Creative Kids Summer Camp Featured Activities

Call to enroll: 510.818.9878 / 510.818.9806

www.uscreativekids.com

## Swim

Enjoy swimming and splashing during the entire summer in the indoor pool at Calphin once a week to play with noodles, rings, water balls and so many other water toys. The swimming pool is heated and supervised by adults and life guards for your child's comfort and safety. Calphin is conveniently located across the parking lot from Creative Kids.

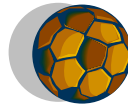

## Science

U.C. Berkeley Zoology graduate offers hands-on science activities. The entire summer starts with spiders and insects and goes on with plants and a garden project. Will also cover birds, dinosaurs and fossils.

## Sport

Activities include basketball, soccer, and volleyball basic skill drills, as well as team sports like dodgeball, kickball, croquet, and various relay/obstacle races. Children will learn about stretching, cardiovascular fitness, and how to contribute to a team that is of mixed ages, gender, and skills, that are changed daily. They will improve their flexibility, endurance, coordination, and balance while having fun competing in contests.

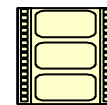

## Spanish

Learn how to converse with one another in a different language. Practice reading and pronunciation of basic words, numbers, and commands. Perform a skit based on everyday interactions surrounding food, directions, how to introduce your self, and how to ask and answer questions.

## Animation

Write a storyline, construct, and create your own characters from clay. Bring them to life by making small adjustments to the clay figures, composing and photographing each frame, compiling the images into a slideshow, and then playing back an animation created from 3d miniatures.

## Photography

Exercise your eyes and imagination to observe your surroundings in new and unique ways. Students will learn to compose and expose photographs with a digital camera by using unusual viewpoints, rule of thirds, different lighting techniques, portraiture, landscapes, different lenses, and people or objects in action.

## Sign language

Sign language is natural, rich 4-dimensional (visual-temporal-spatial) language. People find it beautiful, unique, graceful and/or expressive. It enhance children's eye hand coordination, and expands their cognitive processes and literacy

language.  
children's  
literacy

## Mental math / Writing / Reading / Chinese

We will practice it every week to keep the knowledge fresh. Drill on writing and mental math will be given.

# 银河教育中心快乐夏令营精彩主题活动

## 天才从这里开始.....

### 游泳
